DNA Blood Test

Many applications are delayed owing to the long time required to verify documents with foreign authorities. Applicants can shorten this time considerably by undergoing a DNA blood test at the start of the application in lieu of submitting documents proving blood relationships. DNA blood tests may be requested later in the process if documents prove to be unsatisfactory. If you wish to speed up your application because you do not have the required documents, you may opt to undergo DNA testing. Indicate your willingness to proceed with DNA testing by attaching a letter to your completed application.

Place all of your documents in an envelope and send them to your sponsor.
